Dear Commissioner Henney

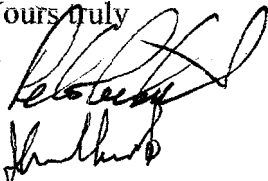

I would like to ask you honor the petition of the Center for Food Safety by requiring that

- 1) No new genetically engineered foods or products be released on the market until the FDA has required long term testing.
- 2) All foods presently on the market and those which come on the market in the future that have been genetically engineered be very clearly labeled as such.

Foods that are GE may pose a very long-term safety issue. Consumers should be given a clear choice in what they buy. Products should not be deceptively marketed at the peril of consumers.

Thank you for your attention to this matter

Yours truly

Peter Felsenthal
